

Additional contributions, 1 January to 31 December 2018

Additional contributions are extra-budgetary contributions to specific projects that are agreed with external donors in support of and in addition to INTERPOL's regular budget and activities. The table below shows how contributions from donors have been **spent** in 2018, along with the total funding pledged and the overall duration of the projects. Note that INTERPOL may also benefit from in-kind contributions, for example in the form of the secondment of personnel, equipment or office space, which are not included in the figures presented here.
